

Sport and Active Recreation - Vocational Pathways

The aim of this programme is to work with schools to focus on building an experience in the classroom that will meet the needs of the students and embed unit standards into that experience. There are two pathways, each has its own context for development across Levels 1, 2 and 3.

It is suggested that the schools work with a context that is applicable to their students, school, and wider community.

Leading in Sport and Active Recreation

3
